

DARYL ROUDEBUSH

Senior Application Developer | Audio Engineer Alexandria, OH 43001 | 740.817.1655 | daryldeanr@gmail.com

PROFESSIONAL PROFILE

Results-driven **Application Developer** delivering data-driven software solutions in **Healthcare**, **Manufacturing**, and **Retail**. Proven at modernizing legacy systems and building scalable applications. **Recording Arts** graduate (Full Sail) with five years at Nashville's **Recording Arts** (Carl Tatz) and **Sound Kitchen** (John and Dino Elefante), plus **Channel 4 News** audio engineering; ongoing digital production in a home studio and church with **Studio One**, **Pro Tools**, **Reaper**, and **Audacity**.

TECHNICAL SKILLS

- **Primary Languages & Frameworks:** C#, VB.Net, Python, WinForms, WPF.
- **Web Development:** ASP.Net MVC, Web API, Blazor, Razor Pages, HTML, JavaScript, CSS, Python/FastAPI, Cursor AI.
- **Database & Data Analytics:** SQL Server, MySQL, Sqlite, T-SQL (Procedures, Functions, Jobs), Power BI, ETL.

AUDIO ENGINEERING SKILLS

- **Analog Production:** Multi-track recording, mixing, and signal flow on analog consoles and outboard gear in professional studio environments.
- **Digital Audio Workstations:** Studio One, Pro Tools, Reaper, Audacity.
- **Environments:** Recording Arts and Sound Kitchen (Nashville); Channel 4 News (Nashville); personal home studio; church live/recorded sound and production.

PROFESSIONAL EXPERIENCE

Freelance Software Development | 2026 – Current

- Built Python middleware solution between hardware distributor and client's Lightspeed POS system.
- Created Single Page Website for client to showcase quality and craftsmanship of client's service.
- Creating database driven solution for legacy spreadsheet solution for client.
- Developing a Retail Cross Reference Vendor Look Up Application using Cursor AI.

Senior Software Developer | Heating And Cooling Products – Mt Vernon, OH | 2023 – 2025

- Modernized custom Windows desktop applications across all business units to improve operational efficiency.
- Converted static daily SQL Server reports into real-time **Power BI dashboards** for live production monitoring.
- Developed and maintained complex **T-SQL procedures**, functions, and automated jobs for business data workflows.
- Resolved high-priority technical issues via help desk ticket support.

Senior Programmer Analyst | MedBen – Newark, OH | 2015 – 2023

- Engineered a high-performance **Flexible Spending Account (FSA) system** from the ground up to replace an obsolete legacy platform.
- Served as the lead collaborator for a new inbound/outbound **eligibility system**.
- Enhanced a client-facing web portal focused on advanced data analytics and reporting.
- Contributed to the development of **cross-platform mobile applications**.

Senior Data Analyst (Contract) | Plan2Account – Cornelius, NC | 2018

- Architected and executed **ETL solutions** specifically for processing EDI X12 837 and 835 healthcare transaction files.
- Ensured data integrity and managed comprehensive reporting for large-scale healthcare data sets.

Web App Developer (Contract) | Tsunami Software – Warsaw, OH | 2014 – 2015

- Facilitated a major UI modernization project by converting a **VB6 order entry application** to ASP.Net MVC4.

AUDIO ENGINEERING EXPERIENCE

Digital Audio Production | Personal Home Studio & Church | Recent – Present

- Produce, edit, and mix projects in a personal home studio using **Studio One, Pro Tools, Reaper, and Audacity**.
- Support church live reinforcement and recorded content with digital editing and mixing workflows.
- Handle end-to-end production from tracking and editing through mixdown and delivery.

Audio Engineer | Recording Arts, Sound Kitchen & Channel 4 News – Nashville, TN | 1993 – 1998

- About **five years** of studio work primarily at **Recording Arts** (Carl Tatz) and **Sound Kitchen** (John and Dino Elefante).
- Served as **Audio Engineer for Channel 4 News** in Nashville, supporting broadcast audio production and news-related recording workflows.
- Operated and engineered sessions on **analog consoles and outboard gear**, including tracking, overdubs, and mix sessions.
- Collaborated with artists, producers, and studio teams to deliver commercial-quality session recordings.

EDUCATION

- **Specialized Associate's Degree in Recording Arts** | Full Sail Center For The Recording Arts, Orlando, FL (1993).
- **Associate of Science in Mechanical Engineering Technology** | Franklin University, Columbus, OH.

INTERESTS

- Music and Video Production (home studio and church); 3D Design and Printing.
